

24 January 1958

Mr. Dulles:

25X1 You will recall that Shef, [ ] (CI) and  
25X1 [ ] (Security) recently told you about a possible Bureau  
request to another government department to set up a program  
similar to our project [ ] Jim called this afternoon and said  
that he and Shef had just completed a most "agreeable" meeting with  
25X1 [ ] -- all ended well, the Bureau is most anxious for us to  
25X1 continue [ ] as a project of common concern, will furnish us  
leads and will share in the "take" of information of interest to the  
FBI.
